- Manager's Discretion or Department Policy
- Unit/Department Specific
- ★ For ACLS and PALS, an AHA card is required. For BLS an AHA Healthcare Provider card or an American Red Cross Professional Rescuer CPR card is required. Some ambulatory care departments may require an annual competency.
- ★★ Contact OSHP and Infection Control for training materials. Information on blood and body fluid exposures specific to your clinical area is available in the Manager's Toolbox on the intranet at <http://www.musc.edu/medcenter/index.htm>
- The Infection Control for Healthcare Workers CATTs lesson provides basic information for all healthcare workers. For units/depts which need additional information for clinical staff, PowerPoints and other resources are available on the Clinical Education web site under Educator Toolbox www.musc.edu/clined
- A PowerPoint presentation is available on the Clinical Education web site under Educator Toolbox. www.musc.edu/clined
